

Q3

Interim report July-September 2017

Stable earnings with good market trend

- Net sales for the third quarter of 2017 rose 3 percent to SEK 7,310 M (7,072).
- Organic sales increased 3 percent. Excluding project deliveries, the corresponding increase was 5 percent. Effects of structural changes made a positive contribution of 2 percent to net sales.
- EBIT, excluding items affecting comparability, rose 1 percent to SEK 920 M (915), equivalent to an EBIT margin of 12.6 percent (12.9).
- Items affecting comparability for the quarter were a negative SEK 45 M (neg: 51) and refer to restructuring expenses, in line with information previously communicated.
- Earnings per share for continuing operations excluding items affecting comparability totaled SEK 2.47 (2.46)
- Operating cash flow amounted to SEK 967 M (1,066). The cash conversion ratio for the most recent 12-month period was 95 percent (89).

² Relates to Vibracoustic.

³ Continuing operations.

Stable earnings with good market trend

“A favorable organic sales trend was noted by most business areas in the third quarter. Organic growth was 5 percent excluding the weak trend for project deliveries within the oil & gas segment.

In most geographic markets, market conditions for general industry improved further compared with the first half of the year. Challenging market conditions persisted in the oil & gas segment, which were partially offset through proactive cost adjustments. The European agricultural sector continued its recovery and posted a healthy trend, primarily in the OEM segment for agricultural machinery. In North America, the corresponding market trend remained weak, even if our volume trend continued to be positive.

The robust trend continued for the automotive industry. However, our aerospace industry deliveries declined slightly. Our assessment is that this is due to slightly restrained production rates at some aircraft manufacturers, which are linked to temporary capacity issues in the supply chain.

Operating profit reached its highest level for a third quarter, and given the negative result in the oil & gas segment, this is a sign of strength. The operating margin remained on a par with the year-earlier period as a result of stringent cost control and strong market positions. We have continuously worked to compensate for the higher raw material prices that prevailed for much of the year. During the later part of the quarter, we achieved compensation for raw material prices.

In terms of the individual regional markets, our business grew most in Asia. Growth was also healthy in Western Europe, North America and South America. We noted a slightly weaker sales trend for Eastern and Central Europe, partly due to our concentrated focus in the quarter on preparing our local manufacturing units related to the acquisition of CGS for the forthcoming integration with existing business areas which will take place from the beginning of next year.

The integration of the acquired CGS units has largely developed satisfactorily and a number of initiatives have been accelerated during the quarter. Investments continue to create a more efficient long-term structure.

The weak trend for our oil & gas-related operation has partly impeded development of the Group's earnings. We are continuing to adjust the operation to lower demand with the aim of creating an operation that is well positioned for the long term.

Overall, our assessment is that the demand in the last quarter of the year will be on a par with, or slightly better than, the third quarter. As previously, we are carefully monitoring economic developments and continue to maintain a high level of preparedness to manage fluctuating market conditions.”

*Peter Nilsson,
President and CEO*

Market outlook for the fourth quarter 2017

Demand is expected to be on a par with, or slightly better than, the third quarter of 2017, adjusted for seasonal variations.

Market outlook from the interim report published on July 20, 2017, relating to the third quarter of 2017

Demand is expected to be on a par with the second quarter of 2017, adjusted for seasonal variations.

Third quarter

Net sales

2017

SEK M, growth	Q3 2017	Q3 2016	9M 2017	9M 2016	R12 2017	12M 2016
Net sales	7,310	7,072	23,873	19,711	31,307	27,145
Change total, %	3	18	21	4		9
Organic sales, %	3	-5	3	-5		-5
Structural change, %	2	24	17	11		15
Currency effects, %	-2	-1	1	-2		-1

Net sales for the third quarter of 2017 amounted to SEK 7,310 M (7,072). Organic sales increased by 3 percent during the quarter, impacted by improved demand in several market segments. Effects from structural changes contributed a positive 2 percent. Exchange rate effects accounted for a negative 2 percent impact on sales compared with the year-earlier period.

Excluding project deliveries¹:

The Group's organic sales increased 5 percent year on year. Organic sales in Western Europe rose 6 percent compared with the year-earlier period. In the rest of Europe, organic sales declined by 4 percent. Organic sales rose by 6 percent in North America, while an increase of 8 percent was noted in South & Central America. Asia and other markets reported an increase in organic sales of 9 percent.

¹ Project deliveries refer to the whole of Trelleborg Offshore & Construction and minor parts of Trelleborg Industrial Solutions operations. Overall, project deliveries account for approximately 10 percent of the Group's net sales.

¹ 9M 2017 includes capital gain from the divestment of the compounding operation in Lesina, Czech Republic, with SEK 472 M, and restructuring expenses of SEK -227 M, of which in the quarter -45 MSEK.

² Relates to Vibracoustic.

EBITA, excluding items affecting comparability, totaled SEK 993 M (980), corresponding to a margin of 13.5 percent (13.8).

EBIT, excluding items affecting comparability, amounted to SEK 920 M (915) for the third quarter, a year-on-year increase of 1 percent. The total exchange rate effects on EBIT, excluding items affecting comparability, from the translation of foreign subsidiaries had a negative impact of SEK 20 M on earnings compared with the year-earlier period. The EBIT margin, excluding items affecting comparability, amounted to 12.6 percent (12.9).

The integration of acquired operations is progressing well and in line with plans and a number of integration projects were initiated during the quarter under the framework of these activities.

Earnings were negatively impacted by the difficult market situation in offshore oil & gas, and efforts to adapt the offshore operation are continuing.

The quarter was charged with items affecting comparability amounting to an expense of SEK 45 M (expense: 51), which refer to restructuring expenses.

EBIT for the quarter, including items affecting comparability, amounted to SEK 875 M (864), up 1 percent.

The net financial expense was SEK 66 M (expense: 46), corresponding to an interest rate of 2.4 percent (1.5).

Net profit for the Group totaled SEK 635 M (631). Excluding items affecting comparability, the tax rate for the quarter was 22 percent (23), impacted by a favorable country mix.

Return on capital employed

Continuing operations, excluding items affecting comparability	2.47	2.46	8.51	7.00	10.74	9.23

Earnings per share for continuing operations excluding items affecting comparability during the third quarter totaled SEK 2.47 (2.46).

For the Group in total, earnings per share amounted to SEK 2.34 (2.33).

January-September 2017

Net sales for the first nine months of 2017 totaled SEK 23,873 M (19,711), up 21 percent year on year.

EBIT for the first nine months of 2017 amounted to SEK 3,408 M (2,382), which includes a capital gain of SEK 472 M from the divestment of the compounding operation in Lesina in the Czech Republic.

The financial net expense was SEK 173 M (expense: 156), corresponding to an average interest rate of 2.0 percent (2.1).

Profit before tax totaled SEK 3,235 M (2,226).

Net profit for the Group totaled SEK 2,601 M (6,066). 2016 included net profit for discontinuing operations relating to Vibracoustic in the amount of SEK 4,369 M.

Total earnings per share for the Group were SEK 9.59 (22.38).

Significant events during the quarter

New production facility in Denmark. Trelleborg Sealing Solutions decided to invest in a new state-of-the-art production facility for sealing solutions in Denmark, thus relocating its current manufacturing facility in the country. The move is intended to transform and further expand the current capabilities of the existing facility to demonstrate future manufacturing principles and technologies that enable profitable sales growth. The investment forms part of Trelleborg's strategy to strengthen positions in attractive market segments.

Trelleborg will invest a total of approximately SEK 120 M during 2017-2020. The investment for this year is within the previously announced framework for capital expenditures for 2017. It is estimated that production will be able to commence in the new facility at the beginning of 2020.

The press release was published on August 17, 2017.

New Business Area President for Trelleborg Sealing Solutions. Peter Hahn was appointed new Business Area President of Trelleborg Sealing Solutions as of January 1, 2018. He succeeds Claus Barsøe and will, like his predecessor, be a member of Group Management. Claus Barsøe will become Executive Vice President within Trelleborg Sealing Solutions, focusing on the transition to the new president and future business development.

Peter Hahn, born in 1958, is currently President Global Business Development including global head of the aerospace and automotive segments at Trelleborg Sealing Solutions. He has held various senior positions in the business area since 2001. Before joining Trelleborg, Peter worked in various senior management positions at 4M Technologies, Leybold and Degussa.

Claus Barsøe has been Business Area President of Trelleborg Sealing Solutions since 2003.

The press release was published on August 31, 2017.

Nomination Committee and proposed new chairman 2018.

At Trelleborg's Annual General Meeting 2017, the Chairman of the Board was assigned the task of asking the five largest shareholders, in terms of votes registered on August 31, 2017, to appoint one member each to the Nomination Committee prior to the 2018 Annual General Meeting.

The following agreed to participate in the Nomination Committee:

Ragnar Lindqvist, Dunker Interests
Henrik Didner, Didner & Gerge Funds
Peter Lagerlöf, Lannebo Funds
Tomas Risbecker, AMF & AMF Funds
Olof Jonasson, First AP Fund

The Chairman of the Board, Sören Mellstig, has after ten years as a board member, including five years as its Chairman, declared that he is not available for re-election. The Nomination Committee therefore decided to propose to the 2018 Annual General Meeting the election of current Director, Hans Biörck, as the new Chairman of the Board.

The Annual General Meeting will be held in Trelleborg, Sweden, on April 25, 2018, at 17:00 CET.

The press release was published on September 15, 2017.

Significant events after the close of the period

No significant events were reported after the close of the period.

Risk management

Trelleborg serves a broad range of customers in a variety of market segments and niches. Sales are made to approximately 150 countries worldwide and the Group has manufacturing operations at 120 production units in around 50 countries.

Although the business is diversified, deploying several business models and operating a number of production units, and has an effective underlying spread of financial risks, a number of risks remain.

Trelleborg has identified nine major risks in five areas. These include risks that may result in damage or loss with substantial impact on the entire Group and therefore justify management of the risk exposure at Group level.

For information regarding the Group's risks, risk exposure and risk management, refer to the latest Trelleborg Annual Report, www.trelleborg.com and the information published in this interim report.

This report has been prepared in accordance with IAS 34 Interim Financial Reporting and the applicable rules of the Swedish Annual Accounts Act. The Parent Company applies recommendation RFR 2, Accounting for Legal Entities of the Swedish Financial Reporting Board and Chapter 9 of the Swedish Annual Accounts Act, Interim Report. The accounting policies applied by the Group and Parent Company correspond to the accounting policies applied in the preparation of the most recent annual report.

New and amended standards applied from January 1, 2017

New and amended standards are not considered to have had a material impact on the Group's or Parent Company's earnings or financial position.

This report was subject to a brief review by the company's auditor.

Trelleborg, October 27, 2017
Board of Directors of Trelleborg AB (publ)

Review report

Introduction

We have reviewed the interim report for Trelleborg AB (publ) for the period January 1 - September 30, 2017. The Board of Directors and the President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with ISA and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

EBIT	58	74	-22	199	236	-16
EBIT, %	10.3	12.4		10.6	12.7	

Additional key ratios on pages 19 - 20

Organic sales for the quarter declined by 2 percent year on year.

Organic sales for coated fabrics declined compared with the year-earlier period. The sales trend in North America was positive, but was counteracted by a weaker trend in Asia. Sales in Europe were unchanged. Sales to general industry and the automotive industry were favorable, while demand from the aerospace industry was lower.

Organic sales of printing blankets were somewhat lower year on year. Stronger sales of printing blankets to Asia partially offset a weaker trend in other regions.

EBIT and EBIT margin declined compared with the corresponding period in 2016, impacted by lower volumes and

a negative mix. Earnings were also affected by production disturbances at a production unit in North America, which can be attributed to the consolidation of two units. Production improvements were however achieved during the quarter compared with the situation in the first half of the year. The consolidation aims to generate synergies and ultimately create a more efficient structure in the long run. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 3 M on earnings compared with the year-earlier period.

Trelleborg Industrial Solutions is a leading supplier of polymer-based critical solutions in such industrial application areas as selected hose and sealing systems and antivibration solutions for rail vehicles, vessels and industrial equipment.

Excluding items affecting comparability, SEK M	Q3 2017	Q3 2016	Change, %	9M 2017	9M 2016	Change, %
Net sales ¹	1,290	1,139	13	4,186	3,598	16
Change total, %	13	-3		16	-5	
Organic sales, %	4	-5		4	-4	
Structural change, %	11	2		12	1	
Currency effects, %	-2	0		0	-2	
EBIT ¹	128	111	15	456	372	23
EBIT, %	10.0	9.7		10.9	10.3	

Additional key ratios on pages 19 - 20

¹ Certain operations previously reported in the Trelleborg Industrial Solutions business area have, January 1, 2017 been transferred to the Trelleborg Sealing Solutions business area. The previous year's key ratios have been adjusted. Total turnover moved from Trelleborg Industrial Solutions amounted to SEK 269 M for the full year 2016 and for EBIT SEK 16 M.

Organic sales for the quarter increased 4 percent year on year. Organic sales rose slightly in Europe and was even more positive in North America and Asia. The sales trend to the automotive industry was unchanged. Sales to general industry were positive in most geographical regions. Low activity in the oil & gas segment continued to negatively impact sales. Deliveries to the infrastructure construction segment varied among the different sub-segments and geographical markets.

EBIT increased due to higher volumes and previously completed acquisitions. The EBIT margin rose slightly compared

with the corresponding period in 2016. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 3 M on earnings compared with the year-earlier period.

The work aimed at strengthening our long-term position within antivibration outside the light vehicles segment is continuing, with the integration of the previously acquired Schwab Vibration Control, among other activities, proceeding well and according to plan.

Trelleborg BUSINESS AREA Offshore & Construction

Trelleborg Offshore & Construction is a leading global project supplier of polymer-based critical solutions deployed in highly demanding offshore oil & gas and infrastructure construction environments.

Excluding items affecting comparability, SEK M	Q3 2017	Q3 2016	Change, %	9M 2017	9M 2016	Change, %
Net sales	698	837	-17	2,227	2,574	-13
Change total, %	-17	-18		-13	-19	
Organic sales, %	-14	-22		-14	-22	
Structural change, %	-	8		-	6	
Currency effects, %	-3	-4		1	-3	
EBIT	-29	42	-169	-45	91	-149
EBIT, %	-4.1	5.1		-2.0	3.5	

Additional key ratios on pages 19 - 20

Organic sales for the quarter declined by 14 percent year on year. The decline was mainly the result of fewer project transactions in the oil & gas segment as well as lower sales in parts of the infrastructure construction segment.

The business area reported a negative EBIT and EBIT margin during the quarter on account of fewer deliveries of large project orders and thus under-absorption in several production units. Adaptation of the offshore oil & gas operation to the difficult market situation is continuing and has helped to

limit the impact on earnings despite significantly lower organic sales. The market situation in the oil & gas segment remains at the level that indicates continued intensive competition for outstanding projects and a depressed demand scenario moving forward. The strategic review of the offshore operation is continuing and the final analysis may lead to structural changes. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 2 M on earnings compared with the year-earlier period.

Trelleborg

BUSINESS AREA

Sealing Solutions

Trelleborg Sealing Solutions is a leading global supplier of polymer-based critical sealing solutions deployed in demanding general industry, light vehicle and aerospace environments.

Excluding items affecting comparability, SEK M	Q3 2017	Q3 2016	Change, %	9M 2017	9M 2016	Change, %

EBIT, %	22.3	21.4		23.2	22.6	

Additional key ratios on pages 19 - 20

¹ Certain operations previously reported in the Trelleborg Industrial Solutions business area have, January 1, 2017 been transferred to the Trelleborg Sealing Solutions business area. The previous year's key ratios have been adjusted. Total turnover moved to Trelleborg Sealing Solutions amounted to SEK 212 M for the full year 2016 and for EBIT SEK 16 M.

Organic sales for the quarter increased by 8 percent year on year. Sales to the automotive industry were in line with the corresponding period in 2016. Deliveries to general industry improved in all geographic regions, above all in the more capital-intensive sector. Organic sales increased in all geographic regions, and was particularly favorable in Asia. Sales to Asia rose significantly, predominantly to the automotive industry but also to general industry. Deliveries to the aerospace industry were somewhat weaker during the quarter, due primarily to temporary capacity restrictions in the sub-supplier stage.

The EBIT and EBIT margin improved as a result of higher volumes and good cost control. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 10 M on earnings compared with the year-earlier period.

During the quarter, Peter Hahn was appointed new Business Area President as of January 1, 2018. Furthermore, the business area decided to invest in a new state-of-the-art production facility for sealing solutions in Denmark with production set to commence at the beginning of 2020. Refer to page 7.

Trelleborg Wheel Systems is a leading global supplier of tires and complete wheels for agricultural and forestry machines, material handling and construction vehicles and two-wheeled vehicles.

Excluding items affecting comparability, SEK M	Q3 2017	Q3 2016	Change, %	9M 2017	9M 2016	Change, %

EBIT, %	10.8	11.0		11.6	12.2	

Additional key ratios on pages 19 - 20

Organic sales for the quarter increased 7 percent year on year. Organic sales of agricultural tires to OEMs of agricultural machinery rose sharply in all regions. The aftermarket in Europe was stable and performed well in North America.

Organic sales of tires for material handling vehicles and construction equipment increased year on year. Organic sales to the North American market decreased somewhat, but this was fully offset by a healthy sales trend in other markets.

EBIT increased on account of the organic growth. The EBIT margin declined somewhat, primarily as a result of the sales mix. Adjustments to sales prices were carried out during the quarter, and the higher raw material prices were offset during the period. Integration work with acquired operations is continuing according to plan and costs related to these

measures impacted earnings. Moreover, a high employment rate, especially in the Czech Republic, resulted in a higher employee turnover. This has affected the delivery rate negatively during the quarter and to some extent also the efficiency. Exchange rate effects from the translation of foreign subsidiaries had a negative impact of SEK 4 M on earnings compared with the year-earlier period.

The business area is continuing to introduce new, smart tire systems in the market, such as ConnectTire, which uses Bluetooth and a wireless connection to monitor tire pressure and temperature, which play a significant role in soil compaction and productivity.

Rubena Savatech

Rubena Savatech is a leading supplier of engineered polymer solutions to the general and automotive industries.

The business, which was acquired as part of CGS, will be recognized separately from Trelleborg's business areas during a transition period, before being integrated into the Trelleborg Industrial Solutions and Trelleborg Coated Systems business areas at the beginning of 2018.

Excluding items affecting comparability, SEK M	Q3 2017	Q3 2016	Change, %	9M 2017	9M 2016 ¹	Change, %

EBIT	33	55	-40	142	81	75
EBIT, %	7.4	12.1		9.7	13.1	

Additional key ratios on pages 19 - 20

¹ Key ratios 2016 refer to the period of June to September.

Organic sales for the quarter declined 3 percent year on year. Sales of niche products to both the automotive industry and general industry were satisfactory for the quarter. Capacity utilization for most product lines was high. Order intake remained strong, but a high employment rate in the Czech Republic in particular resulted in a higher employee turnover, which partially negatively impacted the pace of deliveries in the quarter. Activities to normalize employee turnover are in progress.

EBIT and EBIT margin were also adversely impacted by these staff-related challenges. Integration activities with

Trelleborg Industrial Solutions and Trelleborg Coated Systems are progressing according to plan. Rubena Savatech is scheduled to be integrated into the above-mentioned business areas from the beginning of 2018. In preparation for this integration, investment projects are underway aimed at, for example, increasing manufacturing capacity, in addition to other efficiency-enhancement measures. Earnings for the quarter were charged with costs related to these actions. Exchange rate effects from the translation of foreign subsidiaries had a positive impact of SEK 1 M on earnings compared with the year-earlier period.

Acquisitions

Carrying amounts of identifiable acquired assets and assumed liabilities

First nine months of 2017

Trelleborg Sealing Solutions signed an agreement and finalized the acquisition of the privately owned U.S.-based Carolina Seal Inc during the first quarter. The business specializes in the distribution of polymer seals such as O-rings, hydraulic seals and specialty kitting. The largest market segment is in transportation equipment, including the fast-growing sub-segment for transportation of chemicals. In addition, final settlement of earlier acquisitions was conducted.

Certain adjustments were also made to acquisition analyses attributable to acquisitions in 2016.

First nine months of 2016

On May 31, 2016, Trelleborg finalized the acquisition of 100 percent of the shares in CGS Holding a.s., a privately owned company with leading positions in agricultural, industrial and specialty tires as well as engineered polymer solutions. CGS Holding includes the businesses Mitas, Rubena and Savatech.

In addition to CGS, four other acquisitions were carried out during the first nine months.

- Loggers Rubberteknik B.V.
- Specialty Silicone Fabricators Inc.
- International Tyre and Wheel Solutions Ltd.
- Anderson Seal LLC

¹ Excess value of developed technology is amortized over 10 years.

² The majority have an indefinite useful life, no amortization takes place.

³ Excess value of customer relationships are amortized over 12-14 years.

The above goodwill for 2017 is attributable to acquired non-separable customer relationships and synergy effects expected after the acquisition. The fair value of acquired, identifiable, intangible assets is provisional pending final measurement of these assets.

Valuation techniques used to derive Level 2 fair values

Level 2 derivatives comprise forward foreign contracts and interest rate swaps and are used mainly for hedging purposes but also for proprietary trading. These forward foreign exchange contracts have been fair valued using forward exchange rates that are quoted in an active market. Interest rate swaps are fair valued using forward interest rates extracted from observable yield curves. The effects of discounting are generally insignificant for level 2 derivatives.

Disclosure of fair value for debt and other financial instruments

The majority of the Group's loans carry a variable interest rate, meaning that the carrying amount of the total loan liability is considered to represent a good estimation of the fair value due to the short maturity. For other financial instruments the recognized amounts are also deemed to correspond to their fair value.

The outstanding receivable of approximately SEK 224 M, related to Vibracoustic's realized sales development in 2017, has been classified in accordance with level 3 of the fair value hierarchy due to inputs derived from unobservable market data, including the counterparty's credit risk.

Financial definitions

Trelleborg uses the following alternative performance measures relating to its financial position, return on shareholders' equity and capital employed, net debt, debt/equity ratio and equity/assets ratio. The Group believes that these performance measures can be utilized by users of the financial statements as a supplement in assessing the possibility of dividends, making strategic investments and assessing the Group's ability to meet its financial commitments. Trelleborg also uses the cash flow metrics of operating cash flow and free cash flow to provide an indication of the funds generated by the operations in order to conduct strategic investments, carry out amortizations and generate a return for its shareholders. Trelleborg uses the performance metrics of EBITDA, EBITA and EBIT excluding items affecting comparability, which the Group considers to be relevant for investors seeking to understand its earnings generation before items affecting comparability. The Group defines its key figures as follows.

Capital employed Total assets less interest-bearing financial assets and non-interest-bearing operating liabilities (including pension liabilities) and excluding tax assets and tax liabilities¹.

Cash conversion ratio Operating cash flow as a percentage of EBIT.

Debt/equity ratio, % Net debt divided by total equity.

Discontinuing operations Profit from discontinuing operations is recognized net in the consolidated income statement under the item "Net profit in discontinuing operations".

Earnings per share Net profit for the period, attributable to shareholders of the Parent Company, divided by the average number of shares outstanding.

EBIT Operating profit including items affecting comparability.

EBIT, excluding items affecting comparability Operating profit excluding items affecting comparability.

EBIT margin excluding items affecting comparability, % EBIT excluding items affecting comparability as a percentage of net sales.

EBITA Operating profit excluding amortization and impairment of intangible assets and excluding items affecting comparability.

EBITA margin, % EBITA as a percentage of net sales.

EBITDA Operating profit excluding depreciation and impairment of PPE and amortization and impairment of intangible assets and excluding items affecting comparability.

Equity/assets ratio, % Total equity divided by total assets.

Equity method Shares in associated companies and joint ventures are recognized according to the equity method, in which the initial participation is adjusted to reflect the Group's participation in the profit of the company and any dividends.

Free cash flow Operating cash flow reduced by cash flow from financial items, taxes and the effect of restructuring measures on cash flow.

Items affecting comparability The total of the restructuring costs approved by the Board of Directors and major non-recurring items.

Net debt Interest-bearing liabilities less interest-bearing assets and cash and cash equivalents¹.

Net debt/EBITDA Net debt divided by EBITDA.

Operating cash flow EBITDA excluding other non-cash items, investments, sold non-current assets and changes in working capital. In the key figure, cash flow from items affecting comparability is excluded.

Organic growth The sales growth in comparable exchange rates that is generated by the Group itself on its own merits and in the existing structure. An acquisition is reported only as organic growth if it is included in an equal number of months in the current period and the corresponding period of the previous year. Otherwise, it is reported as structural growth.

Pro forma Pro forma calculations include total Group consolidation from the most recent 12-month period plus acquisitions and divestments in order to reflect current continuing operations.

Return on capital employed, % EBIT divided by the average capital employed.

Return on shareholders' equity, % Profit for the period, attributable to shareholders of the Parent Company as a percentage of average shareholders' equity, excluding non-controlling interests.

¹The remaining receivable for the divestment of Vibracoustic is recognized as a financial receivable and thus impacts the Group's net debt.

Glossary

OEM (Original Equipment Manufacturer) A company that manufactures an end-product that can be sold on the open market. The product often consists of a combination of proprietary manufactured and purchased components from suppliers that are assembled by the OEM company to make the final product.

Plastics can be divided into two main groups: **Thermoplastics** are non-cross-linked plastics that are solid at room temperature but become soft and moldable when heated, and **Hard plastics** are cross-linked plastics that disintegrate upon heating and do not regain their properties.

Polymer The word is derived from the Greek “poly,” meaning “many” and “meros” meaning “parts.” Polymers are made up of many small molecules – monomers – that are linked in long chains. Examples of polymers are plastics and rubber.

Polymer technology The technology relating to manufacturing processes for polymers in combination with their unique properties.

Seasonal effects

The various market segments are subject to seasonal effects. Demand for the Group is normally higher in the first six months of the year than in the last six months.

About Trelleborg

Trelleborg is a world leader in engineered polymer solutions that seal, damp and protect critical applications in demanding environments. Our innovative solutions accelerate performance for customers in a sustainable way.

Business concept

Trelleborg's business concept is to seal, damp and protect in demanding industrial environments.

Strategy

Trelleborg's strategy is to secure leading positions in selected segments. This means that Trelleborg seeks segments, niches and product categories that – by virtue of the Group's market insights, core competencies and offering of advanced products and solutions – provide market leadership. In this manner, long-term shareholder value and added value are generated for customers. Trelleborg works with the strategy, both Group-wide and in the business areas, supported by four strategic cornerstones that – individually and in combination – underpin the strategy. The strategic cornerstones are: Geographic balance, Portfolio optimization, Structural improvements and Excellence.

Value drivers

Polymer engineering. Within our selected segments, we have pioneered applied polymer-engineering and materials technology for more than a century.

Local presence, global reach. Wherever we conduct business, our teams act both as a local partner and leverage our global strength and capabilities.

Application expertise. We have leading-edge technology and in-depth understanding of the challenges our customers must overcome to seal, damp and protect their critical applications.

Customer integration. We always make it easy to do business with us, by integrating closely with markets and customers through multiple channels.

Business accelerator. We work as a proactive and long-term business partner, delivering solutions based on market foresight, contributing to better business for our customers

Trelleborg's market segments:

Business area/Segment distribution	General industry					Capital intensive industry	Light Vehicles
	Oil & gas	Transport equipment	Agriculture	Infrastructure construction	Aerospace

Total	36%	7%	17%	16%	8%	54%	10%

Net sales per market segment and business area based on Annual accounts 2016, including a proforma calculation on acquisitions carried out in 2016.

The Trelleborg Group's operations

Continuing operations

Refers to operations within Trelleborg's five business areas: Trelleborg Coated Systems, Trelleborg Industrial Solutions, Trelleborg Offshore & Construction, Trelleborg Sealing Solutions and Trelleborg Wheel Systems, as well as the Rubena Savatech operation. In addition, it includes central staff functions.

Discontinuing operations

Refers generally to operations that have been discontinued or are in the process of being divested. The joint venture Vibracoustic's historical comparative figures are included here, for example.

Group in total

The above parts consolidated sum up to the Trelleborg Group in total.

Invitation to a presentation and telephone conference on October 27 at 10:30 a.m. CET

A presentation and telephone conference will be held on October 27 at 10:30 a.m. CET. The presentation will take place at Operaterrassen in Stockholm, Sweden. To participate in the telephone conference, call +46 (0) 566 426 99 (Sweden), +44 203 008 9813 (U.K.) or +1 855 831 5945 (U.S.). Code: "Trelleborg". The conference will also be broadcast on the Internet in real time. Visit our website www.trelleborg.com for the Internet link and presentation materials
